

BENTLEY

BENTLEY RACING series

Classical taste overtopping velocity

Now is to past as aesthetics is to technology.

1960s was the golden age of racing sport's evolution. McLaren, Mercedes-Benz, Ferrari, Lamborghini, Jaguar..... numerous car factories competed to develop advanced engineering technology in material quality, structure, motive force, aeromechanics and even racing notions. To instantly and precisely measure the speed of racing car, demand of innovation in watch technique highly increases: tachymeter, the classical element of racing watch, is one of the renovations at that time.

BENTLEY RACING watch series, inheriting the racing spirit from 1960s, infuses classical taste to overtop velocity. When cutting-edge technological racing car ripens into aesthetics classic, BENTLEY furnishes successful gentlemen with this epoch-making quintessence. With the perfect size of 43mm, the style of chronograph or dual time splendidly collocates with integrated stainless steel case and lugs, the dial in classical silver, white, black and blue. You can choose from homochromatic, bi-color argyle bezel and luxurious design adorned with 80 diamonds. Tachymeter is equipped on the outer bezel, measuring an object's 1km speed, symbolizing fervency of racing watch. Multi-layer case is embellished with diamond check pattern, glitters the charm of gracefulness. Luminous sword-pattern hands and rectangular hour index result in visual accuracy to read time. Elegant B-logos ornamented on small second and 12 o'clock position reveal the brand's classical lineage from Switzerland's watch town La Chaux-de-Fonds.

Press the 2 o'clock button to start timing, and press again to stop. Once pushing down the 4 o'clock reset button, second hand would immediately return to zero: splendid visual effect! As for bracelet, apart from stainless steel bracelet, there's also calf leather bracelet, and snug Milan strap sparkling your classic taste of fashion.
